

Monty's Day Care Risk Assessment

February 2020

The following document is Monty's Day Care Risk Assessment. To ensure continuity the hazard identification is carried out by the company directors who identify appropriate controls and procedures and document them.

The generic document is kept by the company owners but made available to the Manager and line managers in the form of a copy who are then expected to customise the risk assessment to their premises. The document contains a column for the managers to document additional controls, which once approved will make up a part of this document.

Degree of Risk: 1 = Minor, 2 = Serious, 3 = Risk to life.
